BUSINESS AND OPERATION REVIEW

BUSINESS REVIEW

The Group recorded a turnover of HK\$51,504,000 and recorded a profit after tax of about HK\$122,706,000 for the year.

Major business arrangements

Continuing Connected Transactions

- (i) On 25 May 2012, the tenancy agreements (the "Tenancy Agreements") were respectively entered into (i) between New Rank Services Limited ("New Rank") (a wholly-owned subsidiary of the Company) as tenant and Winrich Investments Limited ("Winrich") as landlord; and (ii) between New Rank as tenant and Goldrich Investments Limited ("Goldrich") as landlord for leasing of the office premises and the car-parking space. The Tenancy Agreements are for a term of two years commencing from that day at a monthly rental of HK\$66,200. Both Winrich and Goldrich are companies indirectly wholly-owned by an associate of a connected person of the Company, and therefore the transactions contemplated under the Tenancy Agreements constitute continuing connected transactions for the Company under Chapter 14A of the Rules Governing the Listing of Securities on the Main Board of The Stock Exchange of Hong Kong Limited (the "Listing Rules").
- (ii) On 1 August 2013, New Rank, as a tenant, entered into a residential tenancy agreement (the "Residential Tenancy Agreement") with a landlord, Jiacheng Jiaxin International Property Management (Hong Kong) Limited ("Jiacheng Jiaxin"), pursuant to which, Jiacheng Jiaxin leased its residential property and a car-parking space to New Rank at a monthly rental of HK\$52,000 for a term of nine months and twenty four days commencing from the date of the Residential Tenancy Agreement. Jiacheng Jiaxin is a company which is indirectly wholly-owned by an associate of a connected person of the Company. Therefore the transaction contemplated under the Residential Tenancy Agreement constitutes continuing connected transaction for the Group under Chapter 14A of the Listing Rules. Details of which, please refer to the Company's announcement dated 1 August 2013.

OUTLOOK

The Company has resumed its trading on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") for two years already. The Company continues its focus on city development and identifies business opportunities along with its long-established development strategy.

Going forward, urbanization is believed to be the main focus of economic growth in China and will offer tremendous business opportunities for the Company. Aligned with the direction of China's economy growth and also to adhere to the Group's strategic development, we shall actively explore profitable projects including real estate developments and other environmental protection projects. The Group will continue to build strategic business alliance with various professional enterprises, so that all parties can contribute their proficiencies and efforts for conducting business in the arena of city development. In this way, the Company's financial performance can be strengthened and bring optimal benefits to its shareholders.

Chairman's Statement

APPRECIATION

On behalf of the Board, I would like to take this opportunity to express my appreciation to the management team and staff for their dedication and contribution to the Group.

Management Discussion and Analysis

Prospect

Guangzhou Changliu project is the Group's main operating unit in 2013. While the sluggish world economy have adversely affected the Chinese economic development, the rental income of Guangzhou Changliu project has remained fairly stable. The Group's management target is, apart from stabilizing the rental income, to exploit every opportunity to improve the rental income through improving services quality of the site. On the other hand, according to Three Oldies Reform Policy formulated by the Guangdong Provincial Government and Guangzhou Municipal Government, as well as the correspondence with the Renovation Office of the Peoples' Government of Haizhu District, Guangzhou City, the Group will coordinate the progress in the redevelopment of the Guangzhou Changliu project at a pace which would correspond with the overall progress of the local government in the region.

In November 2013, the Group has acquired the entire shareholding of a project company in Qingdao, China. This project company owned a piece of land located in Qingdao City for the purpose of scientific research use. The land is located in the prime location in the central business district of Qingdao City. It is close to the subway under construction and is adjacent to the office building and administrative centre of the Qingdao municipal government. Pursuant to the signed cooperation agreement, the Group is in the course of applying for planning approval for an increase in the plot ratio without any change in the current use of the land. By doing so, it is believed that in addition to the increase in economic value of the project, better economic benefits could be achieved through more efficient use of the land.

The redevelopment of Guangzhou Changliu project and the application for planning approval of the Qingdao project are still at an initial stage. The Board shall announce its latest development when material advancement takes place.

Employees

As at 31 December 2013, the Group has employed about 50 employees in Hong Kong and the People's Republic of China (the "PRC"). The Group adopts a competitive remuneration package for its employees. Remuneration packages are reviewed annually with reference to the then prevailing market employment practices and legislation.

Significant Investments and Material Acquisitions

Except as detailed in note 29 to the consolidated financial statements, the Company did not have any significant investments or material acquisitions for the year ended 31 December 2013.

Contingent Liabilities

The Group did not have any contingent liabilities as at 31 December 2013.

Commitments

Details of the commitments are set-out in notes 30 and 31 to the consolidated financial statements.

Corporate Governance Report

CORPORATE GOVERNANCE

The Company is committed to maintain a high standard of corporate governance and believes that good corporate governance can (i) enhance management effectiveness and efficiency; (ii) increase the transparency of the Company; (iii) enhance risk management and internal control of the Company and (iv) safeguard the interests of the Shareholders and the Company as a whole.

The Company has complied with all the code provisions (“Code Provisions”) as set out in the Corporate Governance Code (the “CG Code”) contained in Appendix 14 of the Rules Governing the Listing of Securities (the “Listing Rules”) on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”), save for the deviations listed below:

The Chairman of the Company is also the chief executive officer of the Company, which deviates from Code Provision A.2.1 which provides that the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. As the current nature of the Group’s business is not complicated, the Board considers that the current structure is sufficient for monitoring and controlling the operation of the Group. The Company will review the structure from time to time and will make necessary arrangements to observe the provisions of the Listing Rules whenever necessary.

According to the Articles of Association of the Company, the non-executive directors of the Company are not appointed for specific terms. Thus, they are deviated from Code Provision A.4.1 which stipulates that non-executive directors should be appointed for a specific term, subject to re-election and Code Provision A.4.2 which stipulates that all directors appointed to fill a casual vacancy shall hold office only until the next following general meeting and every director, including those appointed for a specific term, should be subject to retirement by rotation at least once every three years. However, in view of the fact that non-executive directors are subject to retirement by rotation as stipulated in the Company’s Articles of Association, the Company considers that there are sufficient measures in place to ensure that the corporate governance of the Company are no less exacting than the Code Provisions. In respect of Code Provision A.6.7 of the CG Code, two Independent Non-executive Directors did not attend the annual general meeting of the Company held on 28 May 2013. The Company will review its Articles of Association from time to time and will make necessary amendments to ensure observance of the provisions of the Listing Rules whenever necessary.

According to Article 87(1) of the Articles of Association, since the Chairman of the Board, whilst holding such office, is not subject to retirement by rotation or be taken into account in determining the number of Directors to retire in each year, Code Provision A.4.2 is deviated. The Chairman plays an essential role in the growth and development of the Group. At present, the Chairman’s continuing presence in the Board is important to assure sustainable development of the Group. Given the importance of the Chairman’s role, the Board considers that the relevant article in the Articles of Association has no material impact on the operation of the Group as a whole.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers contained in Appendix 10 to the Listing Rules (the “Model Code”). Having made specific enquiry of the Directors, the Directors have complied with the Model Code throughout the year ended 31 December 2013.

The 2013 Annual Report will be despatched to our shareholders on or before 30 April 2014 and will be available at the websites of the Stock Exchange and the Company.

ANNUAL GENERAL MEETING

It is proposed that the forthcoming annual general meeting of the Company (the "Annual General Meeting") will be held on 26 June 2014. A circular containing the notice of the Annual General Meeting will be published on the Company's website and the Stock Exchange's website and sent to the shareholders of the Company in due course.

CLOSURE OF REGISTER OF MEMBERS FOR ANNUAL GENERAL MEETING

The register of members of the Company will be closed from 24 June 2014 to 26 June 2014 (both dates inclusive). In order to determine the identity of the shareholders who are entitled to attend and vote at the Annual General Meeting, all transfers accompanied by the relevant share certificates must be lodged with the Company's Hong Kong branch share registrar and transfer office, Union Registrars Limited at 18/F Fook Lee Commercial Centre Town Place, 33 Lockhart Road, Wanchai, Hong Kong not later than 4:00 pm on 23 June 2014.

THE BOARD OF DIRECTORS

Composition and role of the Board

The Board is responsible for the overall strategic development and business operation of the Group and also monitors the financial performance and control on business operation. The Board will from time to time review the Company's governance practices and will provide complete and sufficient information to its members so as to ensure effective performance of their responsibilities. Currently, the Board is comprised of three executive Directors and three independent non-executive Directors, which includes:

Executive Directors	:	Mr. Han Junran (Chairman) Mr. Fu Yiu Kwong Mr. Luo Min
Independent Non-Executive Directors	:	Mr. Chan Yiu Tung, Anthony Mr. Seto Man Fai Mr. Zheng Qing

Biographical details (including age, gender and length of service) of the Board members are set out in page 17 and page 18 of this annual report.

Corporate Governance Report

The Company has complied with Rule 3.10(1) of the Listing Rules to appoint at least three independent non-executive directors, together with the requirements of Rule 3.10(2) of the Listing Rules stipulating that at least one of the independent non-executive directors must have appropriate professional qualifications or accounting or related financial management expertise. The Board considers that each independent non-executive Director is independent in character and judgment and that they all meet the specific independence criteria as required by the Listing Rules.

The Company has received from each independent non-executive Director an annual confirmation pursuant to Rule 3.13 of the Listing Rules and the Company still considers such Directors to be independent.

The Board delegates the authority and responsibility for implementing day-to-day operations, business strategies and management of the Group's business to the executive Directors, senior management and certain specific responsibilities to the Board Committees.

DIRECTORS' TRAINING

According to Code Provision A.6.5 of the CG Code, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills to ensure that their contribution to the Board remains informed and relevant. Each newly appointed Director would receive an induction package covering the Group's businesses and the statutory and regulatory obligations of a director of a listed company.

All Directors have participated in continuous professional development and provided a record of training they received for the financial year ended 31 December 2013 to the Company.

The Company has also continuously updated the Directors on the latest developments regarding the Listing Rules and other applicable regulatory requirements, to ensure compliance and enhance their awareness of good corporate governance practices.

The individual training record of each Director received for the year ended 31 December 2013 is summarized below:–

Name of Directors	Attending or participating in seminars/conferences/ corporate events or visits/ reading relevant to the business/directors' duties
Executive Director:	
Mr. Han Junran (<i>Chairman</i>)	√
Mr. Fu Yiu Kwong	√
Mr. Luo Min	√
Independent Non-executive Directors:	
Mr. Chan Yiu Tung, Anthony	√
Mr. Seto Man Fai	√
Mr. Zheng Qing	√

Corporate Governance Report

During the year ended 31 December 2013, seven full Board meetings were held by the Company and complies with the Code Provision A.1.1. The 2013 annual general meeting was held by the Company on 28 May 2013. The Company has already established a profound regime to ensure effective communication among the Directors.

The attendance record of each Director at the Board meetings and the 2013 annual general meeting is as follows:

Name of Directors	Attendance/Number of board meetings	Attendance of 2013 annual general meeting
Mr. Han Junran	7/7	√
Mr. Fu Yiu Kwong	7/7	√
Mr. Luo Min	7/7	√
Mr. Chan Yiu Tung, Anthony	5/7	
Mr. Seto Man Fai	7/7	√
Mr. Zheng Qing	5/7	

Chairman and Chief Executive Officer

According to Code Provision A.2.1, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. During the year ended 31 December 2013, the roles of the Chairman and the Chief Executive Officer of the Company are performed by Mr. Han Junran. As the current nature of the Group's business is not complicated, the Board believes the current management structure is sufficient for monitoring and controlling the operation of the Group. The balance of power and authorities is ensured by the operation of the senior management and the Board, which comprises experienced and high caliber individuals with diversity of perspectives in accordance with Code Provision A.3. The Board currently comprises 3 executive Directors and 3 independent non-executive Directors and therefore has a strong independence element in its composition. The Company will review its structure from time to time and make relevant arrangements to observe the provisions of the Listing Rules whenever necessary.

Appointment, re-election and removal of the Directors

The non-executive Directors of the Company are not appointed for specific terms, thus deviates from Code Provision A.4.1. In addition, the Chairman of the Board and/or the managing Directors of the Company are not subject to retirement by rotation, which also deviates from Code Provision A.4.2. However, in view of the fact that non-executive Directors are subject to retirement by rotation in accordance with the Articles of Association of the Company, the Company considers that there are sufficient measures in place to ensure that the corporate governance of the Company are no less exacting than the Code Provisions. Nevertheless, the Company will review its relevant Articles of Association and will propose any amendments to ensure observance of the provisions of the Listing Rules whenever necessary.

In respect of an independent non-executive Director who has served more than nine years, his further appointment should be subject to a separate resolution to be approved by shareholders under the CG Code. Mr. Zheng Qing has served on the Board for more than nine years. In compliance with Code Provision A.4.3, Mr. Zheng Qing was re-elected to be the independent non-executive Director in the annual general meeting of the Company held on 28 May 2013. The Board considered that he had in-depth understanding of the business and operations of the Company and its subsidiaries and

Corporate Governance Report

provided independent guidance to the Company throughout the years. Mr. Zheng Qing also expressed objective and valuable views to the business development of the Company and he had been demonstrating a strong commitment to his role. The Board further considered that the long service of Mr. Zheng Qing would not affect his exercise of independent judgment and he still remained independent in character. The Board was satisfied that Mr. Zheng Qing acquired experience, character and integrity to continue fulfilling the role of an independent non-executive Director. His continuing service is in the best interest of the Company and its Shareholders as a whole.

BOARD COMMITTEES

The Board has established various committees under the Board, namely Audit Committee, Remuneration Committee and Nomination Committee (collectively, "Board Committees"), to oversee different aspects of the Group's affairs and to assist in the execution of the Board's responsibilities.

AUDIT COMMITTEE

- reviewed and discussed with the external auditor over the financial reporting of the Company;
- recommended to the Board, for the approval by shareholders, of the re-appointment of the auditor; and
- reviewed the internal control procedures of the Group.

The Board also delegated certain corporate governance functions to the Audit Committee, including the review and monitoring of (a) the Group's policies and practices on corporate governance and make recommendations to the Board; (b) the training and continuous professional development of Directors and senior management; (c) the Group's policies and practices on compliance with legal and regulatory requirements; (d) the code of conduct of the Group applicable to employees and Directors; and (e) the Group's compliance with the Code and disclosure in the Corporate Governance Report.

REMUNERATION COMMITTEE

The Company formulated written terms of reference for the Remuneration Committee in accordance with requirements of the Stock Exchange. The Remuneration Committee shall comprise at least three members with majority of independent non-executive Directors, and an independent non-executive Director should take up the role of chairman of the Remuneration Committee. The Remuneration Committee currently comprises two independent non-executive Directors, namely, Mr. Chan Yiu Tung, Anthony (as chairman), and Mr. Seto Man Fai and one executive Director, Mr. Han Junran. The terms of reference of the Remuneration Committee are currently made available on the websites of the Stock Exchange and the Company.

Terms of reference adopted by the Remuneration Committee are aligned with the Code Provisions set out in the CG Code.

The functions of the Remuneration Committee are to make recommendations to the Board on the Company's policy and structure on the remuneration packages for all Directors' and senior management remuneration and on the establishment of a formal and transparent procedure for developing a remuneration policy, to review and approve the management's remuneration proposals with reference to the Board's corporate goals and objectives, to make recommendations to the Board on the remuneration packages of individual executive Directors and senior management, and to make recommendations to the Board on the remuneration of independent non-executive Directors.

Corporate Governance Report

During the year ended 31 December 2013, the Remuneration Committee held 1 meeting for reviewing the remuneration package of the Directors of the Company and approving the proposed remuneration of a senior management.

Mr. Han Junran	1/1

The emolument payable to Directors and senior management will depend on their respective contractual terms under the employment agreements, if any, and is fixed by the Board with reference to the recommendation of the Remuneration Committee of the Company, the performance of the Group and the prevailing market conditions. Details of the remuneration of the Directors and senior management are set out in note 8 to the consolidated financial statements.

NOMINATION COMMITTEE

The Nomination Committee was established on 1 April 2012. Prior to the establishment of the Nomination Committee, its role and functions were performed by the Board. The Chairman from time to time reviewed the composition of the Board with particular regard to the number and the independence of the independent non-executive Directors. The Board also reviewed and determined the suitability and terms for re-appointment of Directors.

The Company formulated written terms of reference for the Nomination Committee in accordance with requirements of the Stock Exchange and amended the same on 23 August 2013. The Nomination Committee shall comprise at least three members with a majority of independent non-executive Directors, and the Chairman of the Board or an independent non-executive Director should take up the role of chairman of the Nomination Committee. The Nomination Committee currently consists of one executive Director, Mr. Han Junran (as chairman), and three independent non-executive Directors, namely, Mr. Seto Man Fai and Mr. Chan Yiu Tung, Anthony and Mr. Zheng Qing. The quorum of meetings of the Nomination Committee shall be any two members. The terms of reference of the Nomination Committee are currently made available on the websites of the Stock Exchange and the Company.

Terms of reference adopted by the Nomination Committee are aligned with the Code Provisions set out in the CG Code.

The functions of the Nomination Committee are to review and monitor the structure, size and composition of the Board and make recommendations on any proposed changes to the Board to complement the Group's strategy; to identify qualified individuals to become members of the Board; to assess the independence of independent non-executive Directors; and to make recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors, in particular the Chairman and the Chief Executive.

The Company adopted a board diversity policy in August 2013 to enhance the quality of its performance in accordance with Code Provision A.5.6. With a view to achieving a sustainable and balanced development, the Company sees increasing diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development. All Board appointments will be based on meritocracy, and candidates will be selected based on a range of diversity perspectives, including gender, age, cultural background and ethnicity, educational background, professional experience, skills, knowledge and length of service.

Corporate Governance Report

The Nomination Committee will review the policy as appropriate to ensure its effectiveness and will discuss any revisions that may be required, and recommend any such revisions to the Board for consideration and approval.

The Nomination Committee held a meeting on 27 March 2013. The Board of Directors had already considered and amended and adopted terms of reference of the Nomination Committee at the Board meeting held on 23 August 2013, there was no need for the Nomination Committee to hold further meetings during the year for reviewing the same.

Report of the Directors

CONTINUING CONNECTED TRANSACTIONS

Non-exempt Continuing Connected Transactions

For the year ended 31st December 2013, the Group has the following continuing connected transactions which are exempt from the independent shareholders' approval requirement under Rule 14A.34 of the Listing Rules:

- (i) On 25 May 2012, the tenancy agreements ("Tenancy Agreements") were respectively entered into (i) between New Rank Services Limited ("New Rank") (a wholly-owned subsidiary of the Company) as tenant and Winrich Investments Limited ("Winrich") as landlord; and (ii) between New Rank as tenant and Goldrich Investments Limited ("Goldrich") as landlord for leasing of the office premises and the car-parking space. The Tenancy Agreements are for a term of two years commencing from that day at a monthly rental of HK\$66,200. Both Winrich and Goldrich are companies indirectly wholly-owned by an associate of a connected person of the Company, and therefore the transactions contemplated under the Tenancy Agreements constitute continuing connected transactions for the Company under Chapter 14A of the Listing Rules.
- (ii) On 1 August 2013, New Rank, as a tenant, entered into a residential tenancy agreement (the "Residential Tenancy Agreement") with a landlord, Jiacheng Jiaxin International Property Management (Hong Kong) Limited ("Jiacheng Jiaxin"), pursuant to which, Jiacheng Jiaxin leased its residential property and a car-parking space to New Rank at a monthly rental of HK\$52,000 for a term of nine months and twenty four days commencing from the date of the Residential Tenancy Agreement. Jiacheng Jiaxin is a company which is indirectly wholly-owned by an associate of a connected person of the Company. Therefore the transaction contemplated under the Residential Tenancy Agreement constitutes continuing connected transaction for the Group under Chapter 14A of the Listing Rules.

As announced by the Company on 25 May 2012 and 1 August 2013, the aggregate Annual Caps for the Tenancy Agreements and Residential Tenancy Agreements, the consideration for the Tenancy Agreements on an annual basis falls within the threshold prescribed in Rule 14A.34 of the Listing Rules. The entering into of the Tenancy Agreements and Residential Tenancy Agreements is therefore subject to the reporting and announcement requirements and annual review requirements under Chapter 14A of the Listing Rules and is exempt from the requirement to obtain independent Shareholders' approval.

The independent non-executive Directors of the Company have reviewed the above continuing connected transactions and confirmed that the transactions have been entered into:

1. in the normal and usual course of the Group's business;
2. on normal commercial terms; and
3. have been carried out in accordance with the terms of the agreements governing such transactions that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

The Auditor of the Company has reviewed the above continuing connected transactions and provided a letter to the Company confirming that the above continuing connected transactions:

1. have received the approval of the Board;

Report of the Directors

2. have been entered into in accordance with the relevant agreements governing the transactions; and
3. have not exceeded the annual caps as disclosed in the Company's announcements dated 25 May 2012 and 1 August 2013.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the directors, the directors confirm that the Company has maintained during the year the amount of public float as required under the Listing Rules.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES

The Company had not redeemed any of its shares during the year. Neither the Company nor any of its subsidiaries had purchased or sold any of the Company's shares during the year.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's Articles of Association, or the laws of the Cayman Islands, being the jurisdiction in which the Company was incorporated.

CLOSURE OF REGISTER OF MEMBERS FOR ANNUAL GENERAL MEETING

The register of members of the Company will be closed from 24 June 2014 to 26 June 2014 (both dates inclusive). In order to determine the identity of the shareholders who are entitled to attend and vote at the Annual General Meeting, all transfers accompanied by the relevant share certificates must be lodged with the Company's Hong Kong branch share registrar and transfer office, Union Registrars Limited at 18/F Fook Lee Commercial Centre Town Place, 33 Lockhart Road, Wanchai, Hong Kong not later than 4:00 pm on 23 June 2014.

MAJOR SUPPLIERS

There is no property development project during the year and therefore no purchase payment was paid or payable to suppliers by the Group during the year ended 31 December 2013.

AUDITORS

The consolidated financial statements for the years ended 31 December 2010, 2011, 2012 and 2013 have been audited by Ascenda Cachet CPA Limited, who retire and a resolution will be submitted to the annual general meeting of the Company to re-appoint the auditors, Ascenda Cachet CPA Limited.

To the shareholders of New City Development Group Limited

(Incorporated in Cayman Islands with limited liability)

We have audited the consolidated financial statements of New City Development Group Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 28 to 101, which comprise the consolidated and company statements of financial position as at 31 December 2013, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the disclosure requirements of the predecessor Hong Kong Companies Ordinance, Cap. 32, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by HKICPA. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independent Auditors' Report

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2013, and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the predecessor Hong Kong Companies Ordinance, Cap. 32.

EMPHASIS OF MATTERS

Without qualifying our opinion, we draw attention to note 2.1 to the consolidated financial statements which indicates that the Group had net current liabilities of HK\$3,003,000 as at 31 December 2013. The consolidated financial statements have been prepared on a going concern basis. As further detailed in note 2.1 to the consolidated financial statements, we consider that the adoption of the going concern basis is appropriate as (i) the Group may enlarge and strengthen its capital base through various fund raising exercises of the Company and (ii) funding from continuing financial supports has been provided by the substantial shareholder of the Company, who has confirmed his willingness to continue financing the operation of the Group to meet its future obligations. We consider that the fundamental uncertainty has been properly disclosed in the consolidated financial statements. Our report is not qualified in respect of the fundamental uncertainty relating to the going concern basis.

1. CORPORATE INFORMATION

New City Development Group Limited (the “Company”) is a limited liability company incorporated in Cayman Islands on 10 August 1998. The registered office of the Company is located at Floor 4, Willow House, Cricket Square, P.O. Box 2804, Grand Cayman KY1-1112, Cayman Islands and its principal place of business in Hong Kong is situated at Flat D, 17/F., MG Tower, 133 Hoi Bun Road, Kowloon, Hong Kong.

The Company is an investment holding company. The Group’s principal activity has not changed during the year and is engaged in property development and investment in the PRC.

The shares of the Company have been listed on the main board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) since 24 May 2000.

2.1 BASIS OF PREPARATION

These consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), and accounting principles generally accepted in Hong Kong. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange (the “Listing Rules”) and the disclosure requirements of the predecessor Hong Kong Companies Ordinance, Cap. 32. They have been prepared under the historical cost convention, except for investment properties, which has been measured at fair value.

These consolidated financial statements are presented in Hong Kong dollars and all values are rounded to the nearest thousand except when otherwise indicated.

Despite the fact that the Group had net current liabilities of HK\$3,003,000 as at 31 December 2013, these consolidated financial statements have been prepared on the basis that the Group and the Company will continue to operate as a going concern. The directors are of the opinion that the Group and the Company are able to continue as a going concern and to meet in full their financial obligations. In view of the liquidity problems faced by the Group, the directors consider that (i) the Group may enlarge and strengthen its capital base through various fund raising exercises of the Company and (ii) funding from continuing financial support has been provided by substantial shareholder of the Company, who has confirmed his willingness to continue financing the operation of the Group to meet its future obligations. Taking into consideration of the net assets value of the Group of HK\$419,251,000 and the net current liabilities of HK\$3,003,000, as at 31 December 2013 and a letter of support has been provided by the substantial shareholder of the Company, the directors are of confident that the Group and the Company will have sufficient cash resources to satisfy its future working capital and other financial requirements and it is reasonable to expect the Group and the Company to remain a commercially viable concern. Accordingly, the directors of the Company are satisfied that is appropriate to prepare the consolidated financial statements on a going concern basis, notwithstanding the Group and the Company’s liquidity position as at 31 December 2013.

Notes to Consolidated Financial Statements

31 December 2013

2.1 BASIS OF PREPARATION (CONTINUED)

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “Group”) for the year ended 31 December 2013. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described in the accounting policy for subsidiaries below. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group’s share of components previously recognises, in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following new and revised HKFRSs for the first time for the current year’s consolidated financial statements.

HKFRS 1 Amendments	Amendments to HKFRS 1 First-time Adoption of Hong Kong Financial Reporting Standards – Government Loans
HKFRS 7 Amendments	Amendments to HKFRS 7 Financial Instruments: Disclosures – Offsetting Financial Assets and Financial Liabilities
HKFRS 10	Consolidated Financial Statements
HKFRS 11	Joint Arrangements
HKFRS 12	Disclosure of Interests in Other Entities
HKFRS 10, HKFRS 11 and HKFRS 12 Amendments	Amendments to HKFRS 10, HKFRS 11 and HKFRS 12 – Transition Guidance
HKFRS 13	Fair Value Measurement

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

HKAS 1 Amendments	Amendments to HKAS 1 Presentation of Financial Statements – Presentation of Items of Other Comprehensive Income
HKAS 19 (2011)	Employee Benefits
HKAS 27 (2011)	Separate Financial Statements
HKAS 28 (2011)	Investments in Associates and Joint Ventures
HKAS 36 Amendments	Amendments to HKAS 36 Impairment of Assets – Recoverable Amount Disclosures for Non-Financial Assets (early adopted)
HK(IFRIC)-Int 20 Annual Improvements 2009-2011 Cycle	Stripping Costs in the Production Phase of a Surface Mine Amendments to a number of HKFRSs issued in June 2012

Other than as further explained below regarding the impact of HKFRS 10, HKFRS 13 and HKAS 1 Amendments, the adoption of these new and revised HKFRS has had no significant financial effect on these consolidated financial statements.

The principal effects of adopting these new and revised HKFRSs are as follows:

- (a) HKFRS 10 replaces the portion of HKAS 27 Consolidated and Separate Financial Statements that addresses the accounting for consolidated financial statements and addresses the issues in HK(SIC)-Int 12 Consolidation – Special Purpose Entities. It establishes a single control model used for determining which entities are consolidated. To meet the definition of control in HKFRS 10, an investor must have (a) power over an investee, (b) exposure, or rights, to variable returns from its involvement with the investee, and (c) the ability to use its power over the investee to affect the amount of the investor's returns. The changes introduced by HKFRS 10 require management of the Group to exercise significant judgement to determine which entities are controlled.

As a result of application of HKFRS 10, the Group has changed the accounting policy with respect to determine which investees are controlled.

The application of HKFRS 10 does not change any of the consolidation conclusions of the Group in respect of its involvement with investees as at 1 January 2013.

- (b) HKFRS 13 provides a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across HKFRSs. The standard does not change the circumstances in which the Group is required to use fair value, but rather provides guidance on how fair value should be applied where its use is already required or permitted under other HKFRSs. HKFRS 13 is applied prospectively and the adoption has had no material impact on the Group's fair value measurements. As a result of the guidance in HKFRS 13, the policies for measuring fair value have been amended. Additional disclosures required by HKFRS 13 for the fair value measurements of financial instruments are included in note 35 to the consolidated financial statements.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

- (c) HKAS 1 Amendments: Amendments to HKAS 1 Presentation of Financial Statements – Presentation of Items of Other Comprehensive Income

The HKAS 1 Amendments change the grouping of items presented in other comprehensive income (“OCI”). Items that could be reclassified (or recycled) to profit or loss at a future point in time (for example, exchange differences on transaction of foreign operations, net movement on cash flow hedges and net loss or gain on available-for-sale financial assets) are presented separately from items which will never be reclassified (for example, the revaluation of land and buildings). The amendments have affected presentation only and have had no impact on the financial position or performance of the Group. In addition, the Group has chosen to use the new title “statement of profit or loss” as introduced by the amendments in these consolidated financial statements.

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these consolidated financial statements.

HKFRS 9	Financial Instruments ³
HKFRS 9, HKFRS 7 and HKAS 39 Amendments	Hedge Accounting and Amendments to HKFRS 9, HKFRS 7 and HKAS 39 ³

HKAS 19 Amendments	Amendments to HKAS 19 Employee Benefits – Defined Benefit Plans: Employee Contributions ²
HKAS 32 Amendments	Amendments to HKAS 32 Financial Instruments: Presentation – Offsetting Financial Assets and Financial Liabilities ¹
HKAS 39 Amendments	Amendments to HKAS 39 Financial Instruments: Recognition and Measurement – Novation of Derivatives and Continuation of Hedge Accounting ¹

¹ Effective for annual periods beginning on or after 1 January 2014

² Effective for annual periods beginning on or after 1 July 2014

³ No mandatory effective date yet determined but is available for adoption

The Group is in the process of making an assessment of the impact of these new and revised HKFRSs upon initial application. So far, the Group considers that these new and revised HKFRSs are unlikely to have a significant impact on the Group’s results of operations and financial position.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Subsidiaries

A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Notes to Consolidated Financial Statements

31 December 2013

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsidiaries (Continued)

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The results of subsidiaries are included in the Company's statement of profit or loss to the extent of dividends received and receivable. The Company's investments in subsidiaries that are not classified as held for sale in accordance with HKFRS 5 are stated at cost less any impairment losses.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of HKAS 39 is measured at fair value with changes in fair value either recognised in profit or loss or as a change to other comprehensive income. If the contingent consideration is not within the scope of HKAS 39, it is measured in accordance with the appropriate HKFRS. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

Notes to Consolidated Financial Statements

31 December 2013

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Business combinations and goodwill (Continued)

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the disposed operation and the portion of the cash-generating unit retained.

Fair value measurement

The Group measures its investment properties, at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Notes to Consolidated Financial Statements

31 December 2013

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value measurement (Continued)

Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than financial assets and investment properties), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the consolidated statement of profit or loss in the period in which it arises in those expense categories consistent with the function of impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the consolidated statement of profit or loss in the period in which it arises.

Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
 - (vi) the entity is controlled or joint controlled by a person identified in (a); and
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment. Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the consolidated statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Leasehold building	Over the lease terms
Leasehold improvement	Over the lease terms
Furniture, fixtures and equipment	18%-35%
Motor vehicles	15%-25%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the consolidated statement of the profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Investment properties

Investment properties are interests in land and buildings held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period. Gains or losses arising from changes in the fair values of investment properties are included in the consolidated statement of profit or loss in the year in which they arise. Any gains or losses on the retirement or disposal of an investment property are recognised in the consolidated statement of profit or loss in the year of the retirement or disposal.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases, including prepaid land lease payments under finance leases, are included in property, plant and equipment, and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to the consolidated statement of profit or loss so as to provide a constant periodic rate of charge over the lease terms.

Assets acquired through hire purchase contracts of a financing nature are accounted for as finance lease, but are depreciated over their estimated useful lives.

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under operating leases are credited to the consolidated statement of profit or loss on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to the consolidated statement of profit or loss on the straight-line basis over the lease terms.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. When financial assets are recognised initially, they are measured at fair value, plus transaction costs that are attributable to the acquisition of the financial assets, except in the case of financial assets recorded at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Notes to Consolidated Financial Statements

31 December 2013

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments and other financial assets (Continued)

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition as at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of sale in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments as defined by HKAS 39.

Financial assets at fair value through profit or loss are carried in the consolidated statement of financial position at fair value with positive net changes in fair value presented as other income and gains and negative net changes in fair value presented as finance costs in the consolidated statement of profit or loss. These net fair value changes do not include any dividends or interest earned on these financial assets, which are recognised in accordance with the policies set out for "Revenue recognition" below.

Financial assets designated upon initial recognition as at fair value through profit or loss are designated at the date of initial recognition and only if the criteria in HKAS 39 are satisfied.

Derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated as at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in the consolidated statement of profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such assets are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and includes fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in other income and gains in the consolidated statement of profit or loss. The loss arising from impairment is recognised in the consolidated statement of profit or loss in finance costs for loans and in other expenses for receivables.

Notes to Consolidated Financial Statements

31 December 2013

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments and other financial assets (Continued)

Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held to maturity when the Group has the positive intention and ability to hold them to maturity. Held-to-maturity investments are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in other income and gains in the statement of profit or loss. The loss arising from impairment is recognised in the statement of profit or loss in other expenses.

Available-for-sale financial investments

Available-for-sale financial investments are non-derivative financial assets in listed and unlisted equity investment and debt securities. Equity investments classified as available for sale are those which are neither classified as held for trading nor designated as at fair value through profit or loss. Debt securities in this category are those which are intended to be held for an indefinite period of time and which may be sold in response to needs for liquidity or in response to needs for liquidity or in response to changes in the market conditions.

After initial recognition, available-for-sale financial investments are subsequently measured at fair value, with unrealised gains or losses recognised as other comprehensive income in the available-for-sale investment revaluation reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in the consolidated statement of profit or loss in other income, or until the investment is determined to be impaired, when the cumulative gain or loss is reclassified from the available-for-sale investment revaluation reserve to the consolidated statement of profit or loss in other gains or losses. Interest and dividends earned whilst holding the available-for-sale financial investments are reported as interest income and dividend income, respectively and are recognised in the consolidated statement of profit or loss as statement of profit or loss as other income in accordance with the policies set out for "Revenue recognition" below.

When the fair value of unlisted equity investments cannot be reliably measured because (a) the variability in the range of reasonable fair value estimates is significant for that investment or (b) the probabilities of the various estimates within the range cannot be reasonably assessed and used in estimating fair value, such investments are stated at cost less any impairment losses.

The Group evaluates whether the ability and intention to sell its available-for-sale financial assets in the near term are still appropriate. When, in rare circumstances, the Group is unable to trade these financial assets due to inactive markets, the Group may elect to reclassify these financial assets if management has the ability and intention to hold the assets for the foreseeable future or until maturity.

Investments and other financial assets (Continued)

Available-for-sale financial investments (Continued)

For a financial asset reclassified from the available-for-sale category, the fair value carrying amount at the date of reclassification becomes its new amortised cost and any previous gain or loss on that asset that has been recognised in equity is amortised to profit or loss over the remaining life of the investment using the effective interest rate. Any difference between the new amortised cost and the maturity amount is also amortised over the remaining life of the asset using the effective interest rate. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to the consolidated statement of profit or loss.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Impairment of financial assets

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that has occurred after the initial recognition of the asset have an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of financial assets (Continued)

Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition).

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in the consolidated statement of profit or loss. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

Include other criteria for writing off amounts charged to the allowance account against the carrying amount of impaired financial assets.

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to finance costs in the consolidated statement of profit or loss.

Assets carried at cost

If there is objective evidence that an impairment loss has been incurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Impairment losses on these assets are not reversed.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of financial assets (Continued)

Available-for-sale financial investments

For available-for-sale financial investments, the Group assesses at the end of each reporting period whether there is objective evidence that an investment or a group of investments is impaired.

If an available-for-sale asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortisation) and its current fair value, less any impairment loss previously recognised in the consolidated statement of profit or loss, is removed from other comprehensive income and recognised in the consolidated statement of profit or loss.

In the case of equity investments classified as available for sale, objective evidence would include a significant or prolonged decline in the fair value of an investment below its cost. "Significant" is evaluated against the original cost of the investment and "prolonged" against the period in which the fair value has been below its original cost. Where there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in the consolidated statement of profit or loss – is removed from other comprehensive income and recognised in the consolidated statement of profit or loss. Impairment losses on equity instruments classified as available for sale are not reversed through the consolidated statement of profit or loss. Increases in their fair value after impairment are recognised directly in other comprehensive income.

In the case of debt instruments classified as available for sale, impairment is assessed based on the same criteria as financial assets carried at amortised cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortised cost and the current fair value, less any impairment loss on that investment previously recognised in the consolidated statement of profit or loss. Future interest income continues to be accrued based on the reduced carrying amount of the asset and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The interest income is recorded as part of finance income. Impairment losses on debt instruments are reversed through the consolidated statement of profit or loss if the subsequent increase in fair value of the instruments can be objectively related to an event occurring after the impairment loss was recognised in the consolidated statement of profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include other payables and accruals, deposits received, finance lease payable, interest-bearing bank and other borrowings, and amounts due to directors.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of repurchasing in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by HKAS 39. Separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the consolidated statement of profit or loss. The net fair value gain or loss recognised in the consolidated statement of profit or loss does not include any interest charged on these financial liabilities.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the date of initial recognition and only if the criteria of HKAS 39 are satisfied.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the consolidated of profit or loss statement when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the consolidated statement of profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial liabilities (Continued)

Convertible bonds

The component of convertible bonds that exhibits characteristics of a liability is recognised as a liability in the consolidated statement of financial position, net of transaction costs. On issuance of convertible bonds, the fair value of the liability component is determined using a market rate for an equivalent non-convertible bond; and this amount is carried as a long term liability on the amortised cost basis until extinguished on conversion or redemption. The remainder of the proceeds is allocated to the conversion option that is recognised and included in shareholders' equity, net of transaction costs. The carrying amount of the conversion option is not remeasured in subsequent years. Transaction costs are apportioned between the liability and equity components of the convertible bonds based on the allocation of proceeds to the liability and equity components when the instruments are first recognised.

If the conversion option of convertible bonds exhibits characteristics of an embedded derivative, it is separated from its liability component. On initial recognition, the derivative component of the convertible bonds is measured at fair value and presented as part of derivative financial instruments. Any excess of proceeds over the amount initially recognised as the derivative component is recognised as the liability component. Transaction costs are apportioned between the liability and derivative components of the convertible bonds based on the allocation of proceeds to the liability and derivative components when the instruments are initially recognised. The portion of the transaction costs relating to the liability component is recognised initially as part of the liability. The portion relating to the derivative component is recognised immediately in the consolidated statement of profit or loss.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the consolidated statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial positions, cash and cash equivalents comprise cash on hand and at banks, including term deposits, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the consolidated statement of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Notes to Consolidated Financial Statements

31 December 2013

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income tax (Continued)

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses, Deferred tax assets are recognised, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (a) from the provision of management services, when the services are rendered;
- (b) rental income and related management service income, on a time proportion basis over the lease terms; and
- (c) interest income, on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or shorter period, when appropriate, to the net carrying amount of the financial asset.

Employee benefits

Share-based payments

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees for grants after 7 November 2002 is measured by reference to the fair value at the date at which they are granted.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the year in which the performance and/or service conditions are fulfilled in employee benefit expenses. The cumulative expense recognised for equity-settled transactions at the end of the reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the consolidated statement of profit or loss for a year represents the movement in the cumulative expense recognised as at the beginning and end of that year.

No expense is recognised for awards that do not ultimately vest, except for equity-settled transactions where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification, that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Notes to Consolidated Financial Statements

31 December 2013

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Employee benefits (Continued)

Share-based payments (Continued)

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

Retirement benefits scheme

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance, for all of its employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to the consolidated statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund.

The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme, except for the Group's employer voluntary contributions, which are refunded to the Group when the employee leaves employment prior to the contributions vesting fully, in accordance with the rules of the MPF Scheme.

The employees of the Group's subsidiary which operates in Mainland China are required to participate in a central pension scheme operated by the local municipal government. This subsidiary is required to contribute 5% of its payroll costs to the central pension scheme. The contributions are charged to the consolidated statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

Foreign currencies

These consolidated financial statements are presented in Hong Kong dollars, which is the Company's functional and presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the consolidated statement of profit or loss.

Notes to Consolidated Financial Statements

31 December 2013

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Foreign currencies (Continued)

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognized in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

The functional currencies of certain overseas subsidiaries, jointly-controlled entities and associates are currencies other than the Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into the presentation currency of the Company at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into Hong Kong dollars at the weighted average exchange rates for the year.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the consolidated statement of profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Notes to Consolidated Financial Statements

31 December 2013

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the consolidated financial statements:

Operating lease commitments – Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties which are leased out on operating leases.

Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

Income taxes

Significant judgements on the future tax treatment of certain transactions are required in determining income tax provisions. The Group carefully evaluates tax implications of transactions and tax provision are recorded accordingly. The tax treatment of such transactions is reconsidered periodically to take into account all changes in tax legislation.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Notes to Consolidated Financial Statements

31 December 2013

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Estimation uncertainty (Continued)

Useful lives of property, plant and equipment

The management of the Group determines the estimated useful lives and related depreciation charges for its property, plant and equipment. This estimate is based on the historical experience of the actual useful lives of the property, plant and equipment of similar nature and functions. It could change significantly as a result of technical innovation. Management will change the depreciation charge where useful lives are different from the previously estimated lives. It will also write-off or write down technically obsolete or non-strategic assets that have been abandoned or sold.

Provision for impairment of receivables

The policy for the provision for impairment of receivables of the Group is based on the evaluation of collectibles and ageing analysis of accounts and on the management's judgment. A considerable amount of judgment is required in assessing the ultimate realisation of these receivables, including these current creditworthiness and the past collection history of each customer.

Fair value of convertible bonds

The fair values of the convertible bonds were calculated using the closing price of the Company and the Trinomial Tree Pricing Model. The models involve assumptions on the Company's stock price, expiration, risk-free rate and volatility. Should these assumptions change, there would be material changes to the valuation.

Impairment of non-financial assets

The Group assesses whether there are any indicators of impairment for all non-financial assets at the end of each reporting period. Indefinite life intangible assets are tested for impairment annually and at other times when such an indicator exists. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

Notes to Consolidated Financial Statements

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Estimation uncertainty (Continued)

Estimated fair value of investment properties

The estimation of fair value of investment properties required the Group to estimate the future market value expected to be recovered from the disposal of the investment properties and a suitable discount rate in order to calculate the present value.

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group's primary operating segment is property development and investment in the PRC. Since this is the only operating segment of the Group, no further analysis thereof is presented.

Geographical information

The Group operates principally in the PRC. Over 90% of the Group's assets are located in the PRC and over 90% of the revenue are generated in the PRC. Accordingly, no further geographical information of total asset and revenue was disclosed.

Information about a major customer

Property management fee income

The major customer of the Group during the years ended 31 December 2013 and 2012 was Tong Sun Limited ("Tong Sun"), a subsidiary being disposed by the Group during the year ended 31 December 2010. The Group managed and operated a property for Tong Sun in the PRC at an annual management fee (the "Property Management Fee Income") of HK\$8,000,000 payable on a quarterly basis for a term of 3 years commencing from January 2011.

Rental income and related management service income

There are no significant concentrations of credit risk within the Group because there is a large number of diversified tenants.

Investment properties are situated at Nos. 20-22 Chigang West Road, Haizhu District, Guangzhou City, Guangdong Province, PRC are held under medium term lease.

Investment properties were leased to tenants under operation leases for rental income and management service fee (note 5), further summary details of which are included in note 30(a) to the consolidated financial statements. The investment properties were stated at fair value at the end of the reporting period.

At 31 December 2013, the Group's investment properties with a carrying value of HK\$714,240,000 (2012: HK\$550,732,000) were pledged to secure bank borrowings, details of which are set out in note 22 to the consolidated financial statements.

The fair value of the investment properties have been assessed by an independent valuer, Savills Valuation and Professional Services Limited ("Savills") to be RMB558,000,000 (equivalent to HK\$714,240,000) as at 31 December 2013.

A change in fair value of investment properties of HK\$146,644,000 (note 5) is recognised in the line item "other income and gain" in the consolidated statement of profit or loss. The Group's accounting department, including but not limited to the finance manager, reviewed the valuation performed by Savills for financial reporting purpose.

At each financial year end, the accounting department:

- Verifies all major inputs to the independent valuation report;
- Assesses property valuation movements when compared to the prior year valuation report; and
- Holds discussions with the independent valuer.

15. INVESTMENT PROPERTIES (CONTINUED)

Details of the Group's investment properties and information about the fair value hierarchy as at 31 December 2013 are as follows:

	Fair value measurement as at 31 December 2013 using			Total HK\$'000
	Quoted prices in active markets (Level 1) HK\$'000	Significant observable input (Level 2) HK\$'000	Significant unobservable inputs (Level 3) HK\$'000	
Industrial properties located in the PRC	–	–	714,240	714,240

During the year, there was no transfer in the fair value hierarchy between Level 1 and Level 2, or transfer into or out of Level 3. (2012: Nil)

The investment properties are located in an old industrial zone of Haizhu district, Guangzhou, PRC which is to be developed into a commercial area. Developments in the neighbourhood comprise mainly old industrial and residential properties which are to be resumed.

The investment properties comprise a parcel of land (the "Land") with a site area of approximately 27,080.54 square meters and with a total gross floor area of approximately 45,006.62 square meters, which was completed in 2003.

The investment properties have been included in an urban redevelopment scheme of Guangzhou, PRC (the "Scheme"). As advised by the director of the Group, portion of the investment properties with a site area of approximately 14,000.00 square meters is zoned as "Green Belt" under the Scheme and will be resumed by the government (the "Resumption Portion"), while the remaining portion of the investment properties with a site area of approximately 13,080.54 square meters is zoned as "Business and Commercial" under the Scheme and can be re-developed after payment of land premium for the change of land use with the government (the "Redevelopment Portion"). The proposed gross floor area of the Redevelopment Portion is approximately 79,886.00 square meters.

Pursuant to a reply letter of enquiry results – Hai Geng Xin Cha Han (2012) No. 25 (海更新查函(2012) 25號) issued by the Urban Renewal and Redevelopment Works Office of the People's Government of Haizhu District, Guangzhou (廣州市海珠區城市更新改造工作辦公室) dated 8 October 2012, it was confirmed that the Land has been included in the Scheme.

15. INVESTMENT PROPERTIES (CONTINUED)

Pursuant to Savills' valuation report dated 25 March 2014, the fair value was determined based on the direct comparison approach, which used observable inputs (e.g. (i) gross floor area; (ii) land prices by reference to the comparable market transactions published by the relevant government authorities; and (iii) the compensation to be received from the government for the Resumption Portion by reference to the similar compensation for the previous transaction, etc) and taking into account the estimated land premium (the "Estimated Land Premium"), which used unobservable inputs, to be payable for the change of land use from industrial use to commercial use for the Redevelopment Portion by reference to the refer rate published by Guangzhou Real Estate Valuation Administrative Office (廣州市房地產估價管理所), but subject to the further negotiation with the People's Government of Haizhu District, Guangzhou on a case by case basis.

Information about the Level 3 fair value measurements is as follows:

Description	Fair value at 31 December 2013	Valuation techniques	Unobservable inputs	Unobservable Inputs	Relationship of unobservable inputs to fair value
Industrial properties	714,240,000	Direct comparison approach	Estimated Land Premium	RMB866 square meters	The higher the Estimated Land Premium, the lower the fair value

Note:

As detailed in note 29 to the consolidated financial consolidated statements, the Company acquired a 100% equity interest in French Land Limited (“French Land”), Fudi International Holding Co., Limited (“Fudi”) and Guangdong Changliu Investment Company Limited (“Changliu”, together with French Land and Fudi, collectively the “Changliu Group”) on 21 February 2012. All the bank and other borrowings of the Group were assumed from the acquisition of Changliu Group which are denominated in RMB and are secured by legal charges on the investment properties (note 15). Details of the secured interest-bearing bank and other borrowings are as follows:

- On 15 June 2011, Changliu entered into a loan agreement (the “ICBC Loan Agreement”) with Industrial and Commercial Bank of China (“ICBC”), pursuant to which, ICBC agreed to grant a loan (the “ICBC Loan”) in the amount of RMB140 million to Changliu with a term of 10 years. As at 31 December 2012, RMB19.7 million (equivalent to HK\$24,546,200) of the ICBC Loan has been drawn down by Changliu. The ICBC Loan bears interest at the benchmark annual lending and deposit rate of the People’s Bank of China and is payable by 120 monthly installments from July 2011 onwards.
- As for the undrawn balance of RMB120.3 million, ICBC has procured Sichuan Trust Co., Limited (the “Sichuan Trust”) to enter into a loan agreement (the “Sichuan Trust Loan Agreement”) with Changliu on 2 August 2011, pursuant to which, Sichuan Trust agreed to provide a loan in the amount of RMB\$120.3 million (the “Sichuan Trust Loan”) to Changliu with a term of 10 years. As at 31 December 2012, the Sichuan Trust Loan were fully drawn down by Changliu. The Sichuan Trust Loan bears interest at 120% of the benchmark annual lending and deposit rate of the People’s Bank of China with the principal amount payable by 40 quarterly installments and interest payable on a monthly basis since August 2011.

34. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

Management has assessed that the fair values of cash and cash equivalents, the trade receivable, financial assets included in prepayments, deposits and other receivables, financial liabilities included in other payables and accruals, deposits received and amounts due to the directors approximate to their carrying amounts largely due to the short term maturities of these instruments.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of finance lease payable, interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments on with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for finance lease payable, and interest-bearing bank and other borrowings as at 31 December 2013 was assessed to be insignificant.

Fair value hierarchy

As at the end of the reporting period, the Group did not have any financial instrument which are measured in fair value.

35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise other payables and accruals, finance lease payable and interest-bearing bank and other borrowings, secured. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets such as trade receivable which arise directly from its operations.

It is, and has been, throughout the year under review, the Group's policy that no trading in financial instruments shall be undertaken.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below. The Group's accounting policies in relation to derivatives are set out in note 2.4 to the consolidated financial statements.

Interest rate risk

The Group's exposure to the risk of changes in market interest rates related primarily to the Group's other payables and interest-bearing bank and other borrowings, secured with a floating interest rate.

35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Interest rate risk (Continued)

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variable held constant, of the Group's profit before tax.

	Increase/ (decrease) in basic points	Increase/ (decrease) in profit before tax HK\$'000	Increase/ (decrease) in equity* HK\$'000

Hong Kong dollars	1%	(1,579)	-

31 December 2012			
Hong Kong dollars	1%	(1,909)	-
	(1%)	1,909	-

* Excluding retained profits/accumulated losses.

Foreign currency risk

The directors are of the opinion that almost all of the transactions of the Group and recognised financial assets and liabilities are denominated either in HKD or Renminbi ("RMB") and accordingly the Group's foreign currency risk is not material as the exchange rate of HKD against RMB is quite stable. The Group currently does not have a foreign currency hedging policy. However, the management will monitor the foreign exchange exposure should the need arises.

Credit risk

The Group's credit risk is primarily attributable to trade receivable, prepayments, deposits and other receivables and cash and bank balance. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. The allowance for impairment has been made to reduce the exposure to the credit risk in relation to the receivables. Other than this there are no significant concentrations of credit risk within the Group in relation to other financial assets.

Liquidity risk

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial instruments and financial assets and projected cash flows from operations.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans, finance leases payable and other interest-bearing loans. In view of the liquidity problems faced by the Group, the directors consider that (i) the Group may enlarge and strengthen its capital base through various fund raising exercises of the Company; and (ii), the substantial shareholder of the Company has confirmed his willingness to continue financing the operation of the Group to meet its future obligations.

35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Capital management

The primary objective of the Group's capital management is to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Group monitors capital using a gearing ratio, which is net debt divided by the total capital plus net debt. Net debt includes other payables and accruals, deposits received, finance lease payable, interest-bearing bank and other borrowings, secured and amounts due to directors, less cash and bank balances. Capital includes equity attributable to equity holders of the Company. The gearing ratios as at the end of reporting periods were as follows:

	Group	
	2013	2012
	HK\$'000	HK\$'000
Other payables and accruals	17,792	35,664
Deposits received	7,165	4,519
